The Fox by Frederick Forsyth

In this book the Pentagon, the NSA, and the CIA have been hacked simultaneously, their seemingly impenetrable firewalls breached by an unknown enemy known only as "The Fox." The culprit is revealed to be a young British teenager, Luke Jennings. He has no agenda, no secrets, just a blisteringly brilliant mind. Extradition to the U.S. seems likely--until Weston has another idea: If Luke can do this to us, what can he do to our enemies? Adrian must stay one step ahead of multiple invisible enemies, all while finding a way to utilize the most powerful--and most unpredictable--weapon of all.
