

Inheritance by Dani Shapiro

In the spring of 2016, through a genealogy website to which she had whimsically submitted her DNA for analysis, Dani Shapiro received the stunning news that her father was not her biological father. *Inheritance* is a book about secrets--secrets within families, kept out of shame or self-protectiveness; secrets we keep from one another in the name of love.

Late-Life Love by Susan Gubar

On Susan Gubar's seventieth birthday, she receives a beautiful ring from her husband, which causes her to consider how older lovers differ from their youthful counterparts. Throughout the complications, such as her own ongoing cancer treatments and perplexity over the breakdown of a treasured friendship, Susan realizes that age cannot wither love.

Of Blood and Bone by Nora Roberts

Fallon Swift, approaching her thirteenth birthday, barely knows the world that existed before, now in ruins and reclaimed by nature since the Doom sickened and killed billions. Those like Fallon, in possession of gifts, are hunted—and the time is coming when her true nature, her identity as The One, can no longer be hidden.
