Send your completed applications to:
East Grand Forks
Water & Light
PO Box 322
East Grand Forks, MN
56721

Checklist for Application

- A copy of the dated invoice specifying the item purchased.
- Completed Application Including table

This program provides monetary incentives for commercial electric customers of the East Grand Forks Water and Light Department that purchase and install qualifying lighting equipment in new buildings, additions to existing buildings, or major renovations of an existing building.

What products are eligible for the rebate?

Please see the lighting table on the back page for information on the eligible products.

General Qualifications

- Submit a written proposal with an explanation of your project along with the project costs to the Department for review & approval before project is started.
- Lighting equipment must be operated during weekday on-peak demand hours (6 a.m. – 9 p.m.) except outdoor fixtures
- Customers must apply for rebates within 1 year of the purchase date shown on the equipment invoice.

Application

- Submit completed application along with copies of dated invoices specifying the quantity, price, manufacturer and model # of all materials purchased.
- Rebates will be paid in the form of a check to the customer

Inspection and Verification

The Department reserves the right to conduct an inspection of the site after installation to verify that all the program rules and requirements have been met. If the Department finds that the customer has not met its rules and standards, any rebate the customer has received must be returned to the utility.

Rebate Limits

- Rebates cannot exceed 50% of the total project cost.
- Rebates are processed on a first-come first-serve basis
- Rebate qualifications and amounts are subject to change at any time. East Grand Forks Water and Light New Construction Lighting Rebate Program will stay in place each year unless amended or eliminated.
- The Department will not rebate for the same installation more than once during the expected life of the installation
- The Department reserves the right to limit the maximum amount of rebate per facility/customer in any one year depending on the Department's Conservation Budget.
- The Department does not guarantee that the installation of high-efficiency material or equipment will result in reduced usage or demand or in cost savings.
- The Department makes no warranties, expressed or implied, with respect to any material or equipment purchased and/or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose. In no event will the Department be liable for any incidental or consequential damage.
- The Department will not be responsible for any tax liability imposed as a result of the rebate payment. Customer are advised to consult their tax advisor
- The Department is not liable for rebates promised to a customer as a result of a contractor misrepresenting the program.
- *The Department has set a 10 year maximum rebate, when combining all Commercial Rebates, at \$100,000.00 per facility.*
